SAFETY MOMENT - Homesickness

Many Scouts experience some symptoms of homesickness during camp, and identifying these symptoms early and addressing them can help make the event a great experience for everyone. Common symptoms include mild depression, anxiety, withdrawn behavior, somatic—or physical—complaints, and misbehavior. Some ways of addressing homesickness include:

- Address any fears of hazing or bullying.
- Make everyone feel a part of the group.
- Get everyone integrated into the camp routine and inform them of what to expect.
- Provide social support to normalize their experience
- Promote an appropriate connection with home, e.g., have them write a letter home.
- Assess the Scouts' needs and provide positive coping outlets
- Encourage them and follow up regularly.

For more info check out [Homesickness Safety Moment](#) and If you need any safety help, contact us at safety@ggacbsa.org.

COVID update . . .

Check out GGAC's [COVID Update](#) page for our latest COVID-19 guidance. If you have any questions, please email us at: [Safety at GGAC](#).
